Disrupting SACCO Banking Status Quo

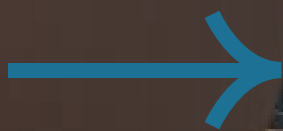

#EscapeTheSpreadsheetHassle

SaccoSys is Made for your SACCO!

Make the best out of your SACCO
by focusing on what really
matters as we handle financial
administration.

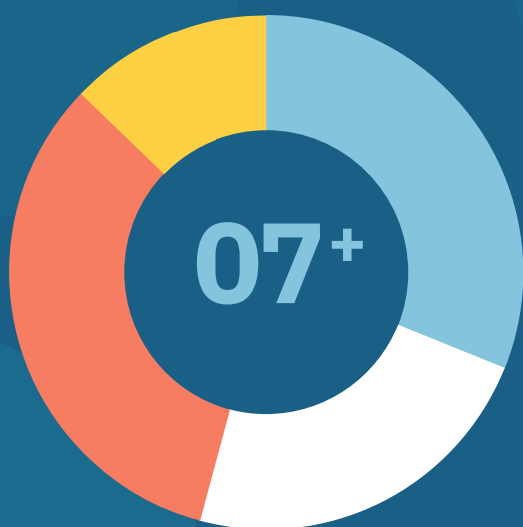

About SaccoSys

We began in March 2024 with a desire to disrupt Savings and Credit Co-operatives (SACCOs) management by offering a streamlined, intuitive and affordable cloud-based software. Dreaming big but wisely, SaccoSys started with serving just one SACCO. Within five months, it had gained traction to be adopted and implemented by five SACCOs.

SaccoSys is a software designed to meet the financial management needs of small and growing SACCOs, Savings and Investment Groups, Company SACCOs, Micro-Finance Institutions (MFIs) and Village Savings and Loans Associations (VSLAs). Offered as a Software as a Service (SaaS), SaccoSys empowers SACCOs to easily deliver modern financial experiences to their clients.

RONALD KATO
Product Manager,
SaccoSys

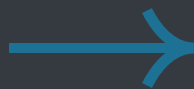

SaccoSys empowers SACCOs to build customer relationships, laying a foundation for long-term success and financial growth.

“At SaccoSys, we innovate with purpose, fueled by our impact to create lasting difference for SACCOs and their members. Every day, we come together with a shared commitment to putting our clients first.”

Disrupting SACCO banking status quo.

Traditional SACCO data processing and management systems, such as Excel spreadsheets, present inefficiencies in SACCO banking.

Recognising that these systems weren't working as expected, a decision was reached to develop a new consumer financial service platform — one specifically designed to reduce operational costs, enhance efficiency and meet the needs of every SACCO. SaccoSys exists to change the banking status quo in SACCOs.

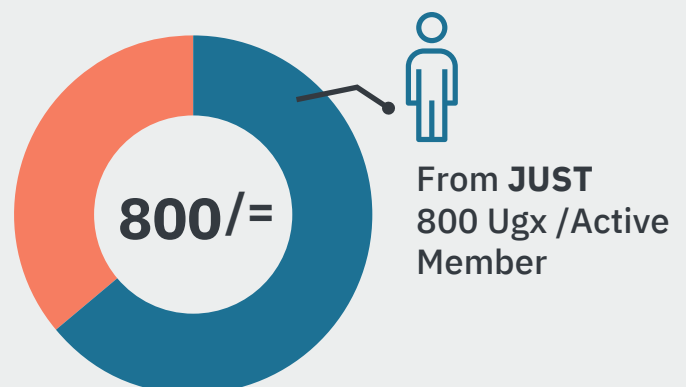

Pricing

Philosophy →

Say goodbye to costly license charges! With SaccoSys, you only pay for what you use, no hidden charges.

Our flexible pay-as-you-go pricing model ensures that subscription charges apply only to **ACTIVE SACCO** members. If your SACCO has no active members, you **pay nothing**.

Associations (VSLAs)

Customer Relationships start here! →

SaccoSys is more than a software, it's a key to lasting SACCO success.

saccosys.com/book-demo

By empowering SACCOs to build, manage and strengthen customer relationships, SaccoSys transforms the way SACCO engage with their members.

Features you'll love →

Get back to doing things you love most in your SACCO

01. Member On-Boarding

Simplify member on-boarding and account opening. Manage savings/deposits and withdrawals.

02. Robust Dashboards and Reports

Predictive, filterable and exportable reports on member savings, shares and other financial statements.

03. User Roles and Permissions

SaccoSys employs a Role-based Access Control (RBAC) model, allowing you to add unlimited users with customizable roles and permissions. This ensures that your SACCO's operations run smoothly and securely.

04. Loan Portfolio Management

Handle Loan Aging, Member borrowing and Repayment behavior prediction with AI integration. Handle Penalties, fees, Loan rescheduling and Pay-off with ease. Generate accurate loan schedules and related reports.

05. Loan application and approvals

Manage the entire loan lifecycle, from application to appraisal, approval, disbursement and repayments. Generation of automated-printable loan repayment schedules. Manage loan documents. Automated and Manual daily and monthly penalty application.

06. Shares Management

Easily manage member shares with SaccoSys, ensuring accurate records and transactions.

07. Fixed Deposits

Track and manage fixed deposits, including interest calculations and maturity payments, Withholding Tax management.

08. Loan Reports

Printable loan reports such as Portfolio on Ageing Loans, Pending Due Loan Repayments and Past Maturity Date Loans

09. Data Security and Audit Trail

SaccoSys ensures data integrity and security through User access and fraud control mechanisms. We employ Two-Factor Authentication (2FA) at login. Manual and Automated backups and robust audit trails are implemented. Fraud is controlled through a reversal functionality where transactions are reversed instead of deleting entries. We keep reversed records for auditing purposes.

10. Income and Expenses

Stay on top of your SACCO's financial health with SaccoSys. Our platform allows you to record all income and expenses, providing clear insights into your financial status.

11. Messaging and Email Center

Keep your members engaged with our messaging center. Send Bulk SMS campaigns or email notifications, automated birthdays. This module integrates with the loans module to facilitate loan late repayments reminders, SMS and email notifications on deposits and withdrawals.

12. Savings and Withdrawals

SaccoSys provides an easy-to-use platform for managing members' savings and withdrawals. Manage regular savings and withdrawals. Keep accurate, up-to-date records of shareholdings.

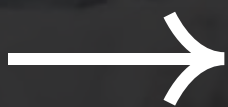

13. Bulk Imports

Importing large datasets is quick and easy. Our bulk imports module saves you time and reduces the risk of errors, allowing you to maintain accurate records. Import large amounts of data in one go. Reduce manual entry and minimize errors.
